FINANCE DECISION RELEASE PACKET

Ten decisions from Ryan and Tina to clear the last hold on QEP's new accounting system. Everything here is a business decision only the owners can make — no software knowledge needed.

WHAT THIS RELEASES

One item is holding up finance: the migration path (BLK-FIN-MIGRATION-PATH). Fill the answer boxes in this packet — type directly in the PDF or print and write — and finance moves.

ALREADY DECIDED — PLEASE DON'T REOPEN

- **The new system (QEP OS) becomes QEP's main books** going forward — for money owed to you, money you owe, and reporting.
- **IntelliDealer stays the day-to-day system during the switch,** until each piece is moved over. Nothing gets dropped.
- **QuickBooks Desktop shrinks to paying vendors, the cash/check register, and CPA reporting.** It is no longer the main ledger.

HOW TO USE THIS PACKET

- 1 Answer in your own words. Rough answers are fine — "I need to check" or "we don't do that" are real, useful answers.
- 2 For each decision, mark whether you can answer it by note now, or would rather settle it in a short working session with our team.
- 3 Where an item asks for a file or export, just note who has it. Use the checklist on the last page.
- 4 You can type directly into the boxes in this PDF, or print it and write. Either way, send it back and finance is unblocked.

IN EACH DECISION: a plain-language question · an answer box · a quick "note now / working session" choice.
