Customer Profile: Search and Listing

Data Source: CMASTR

Security Switch: 996 - Customer Profile

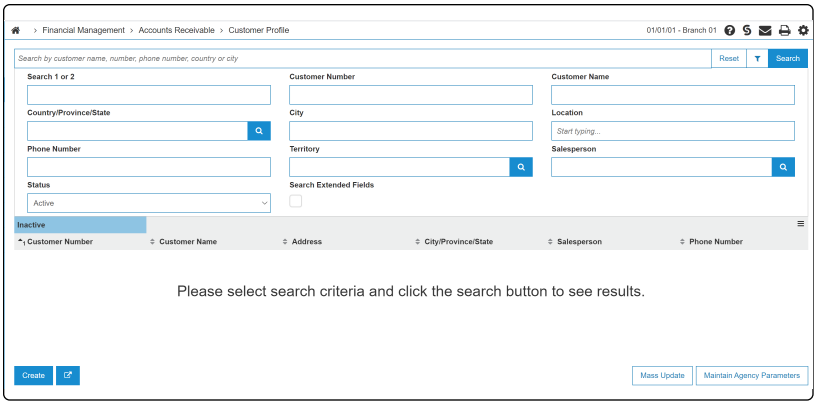
Revision: 2025.09

The **Customer Listing** screen is the point of entry to Customer Profiles. It is available from these menu paths:

- **Financial Management > Accounts Receivable > Customer Profile**
- **Customer Care > CRM > Customer Profile**
- **Management Central > CRM > Customer Profile**

Use this screen to:

- search for a customer profile and open it for edit. See Searching for Customer Profiles
- or add a new Customer Profile.



Searching for Customer Profiles

1. Enter your search criteria in the appropriate fields. See Screen Description.
2. Click the **Search** button.

   The Customer Profiles that meet the search criteria are shown. If only one profile entry is found, the system automatically opens the screen displaying the corresponding profile.
3. Locate the desired customer from the results and click on it to open the **Customer Profile**.

If **Search Extended Fields** is selected and you enter a **Customer Name** then executing a search also scans:

- the **Customer Profile: Contacts** tab for a matching firstName or lastName
- the **Customer Profile: Ship To** tab for a matching name

If **Search Extended Fields** is selected, and you enter a generic Keyword Search OR regardless of the Search Extended Fields if a Salesperson, Home or Business Email or Phone Number is selected, then executing a search also scans the **Customer Profile: Contacts** tab for a matching:

- partsSalesperson, serviceSalesperson, rentalSalesperson, equipmentSalesperson, adminSalesperson or otherSalesperson
- homeEmailAddress or businessEmailAddress
- phoneNumber

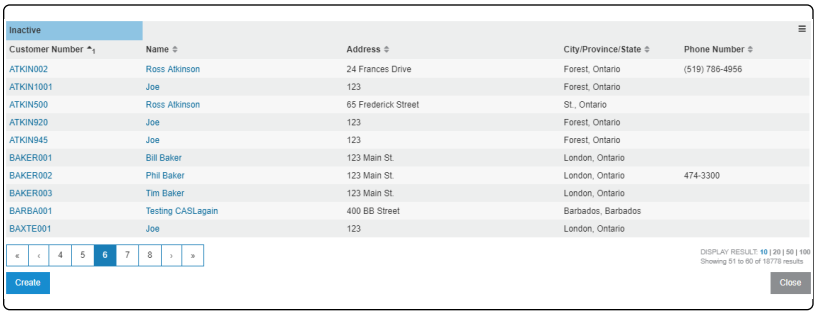
See also Listing Screens.

Screen Description

The search fields on the **Customer Listing** screen are:

Field	Description
Search 1 or 2	Search for a customer by entering either search word 1 or 2. The **Search 1** and **Search 2** fields are "starts with" search fields. When you enter a value in one of these fields, IntelliDealer begins searching the customer database for customers with **Search 1 or Search 2** field values that start with the value entered.
Country/Prov/State	Search for a customer by entering a Country/Prov/State.
Phone Number	Search for a customer by entering a phone number. The search includes phone numbers currently on contact list.
Status	Search for a customer by selecting a specific customer status from the drop down list. For example: All, Active, Deleted or prospect customer status.
Customer Number	Search for a customer by entering a customer number.
City	Search for a customer by entering a city location.
Territory	Search within a specific territory
Name	Search for a customer by entering a customer name.
Location	Search for a customer by entering a location.
Salesperson	Search for a customer by entering a salesperson. The Salesperson entries from both the Customer Profile and the Customer Profile Contacts are searched.
Search Extended Fields	Adds the data in the **Contacts** and **Ship To** tabs to the search to find more results based on the search criteria.

Search results appear in a categorized list:



The ≡ icon option **Export to CSV** creates a CSV file version of the results listed.

The **Create** button opens the Add Customer screen in a new pop-up.

The **Mass Update** button opens the Customer Group File Changes screen.

The **Maintain Agency Parameters** button opens the Activate/Deactivate Agency Codes screen.

The **Close** button closes the window.

Did you find this helpful? *Yes No*
