Sales Support Portal

Security: 808 - Product Support - Sales Support Portal

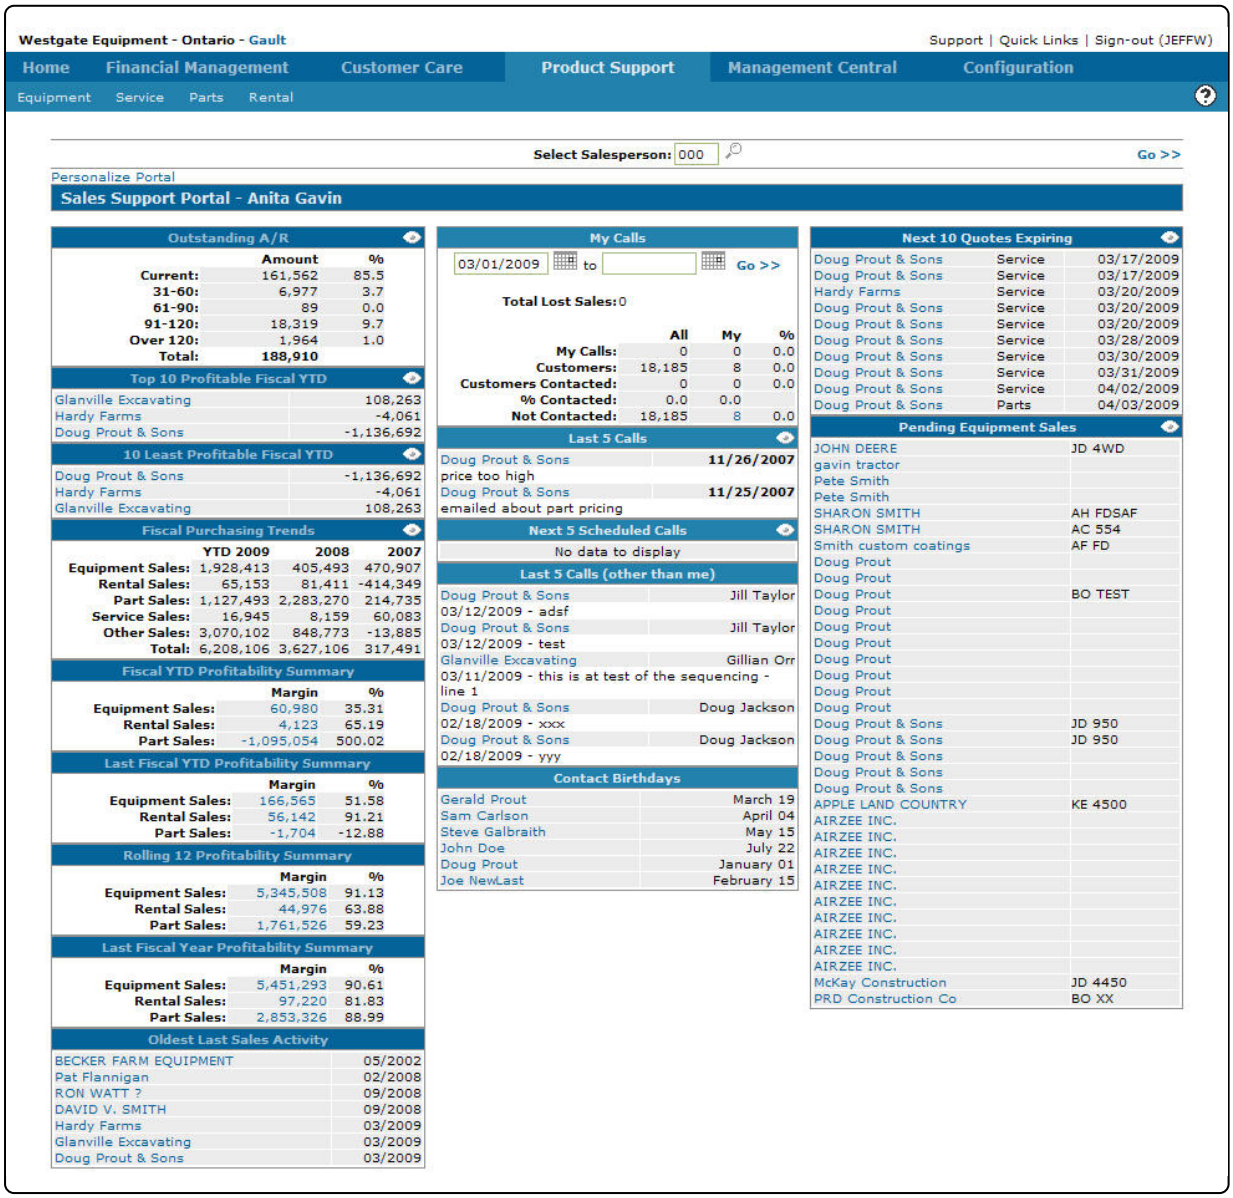
Revision: 2025.04

Equipment salespersons can use the **Sales Support Portal** screen to stay on top of active sales, current sales figures, contacts, call schedule and much more. This screen is customizable and can be setup to meet each salesperson's needs.

A salesperson's customer base is determined by customers where the salesperson has been selected as the default salesperson while setting up the customer profile or if the salesperson has been selected as a customer's contact salesperson for one of these sales categories: parts, service, other, equipment, rental or administration.

To open the **Sales Support Portal** screen, navigate to **Product Support > Equipment > Sales Support Portal**.

Sales Support Portal screen



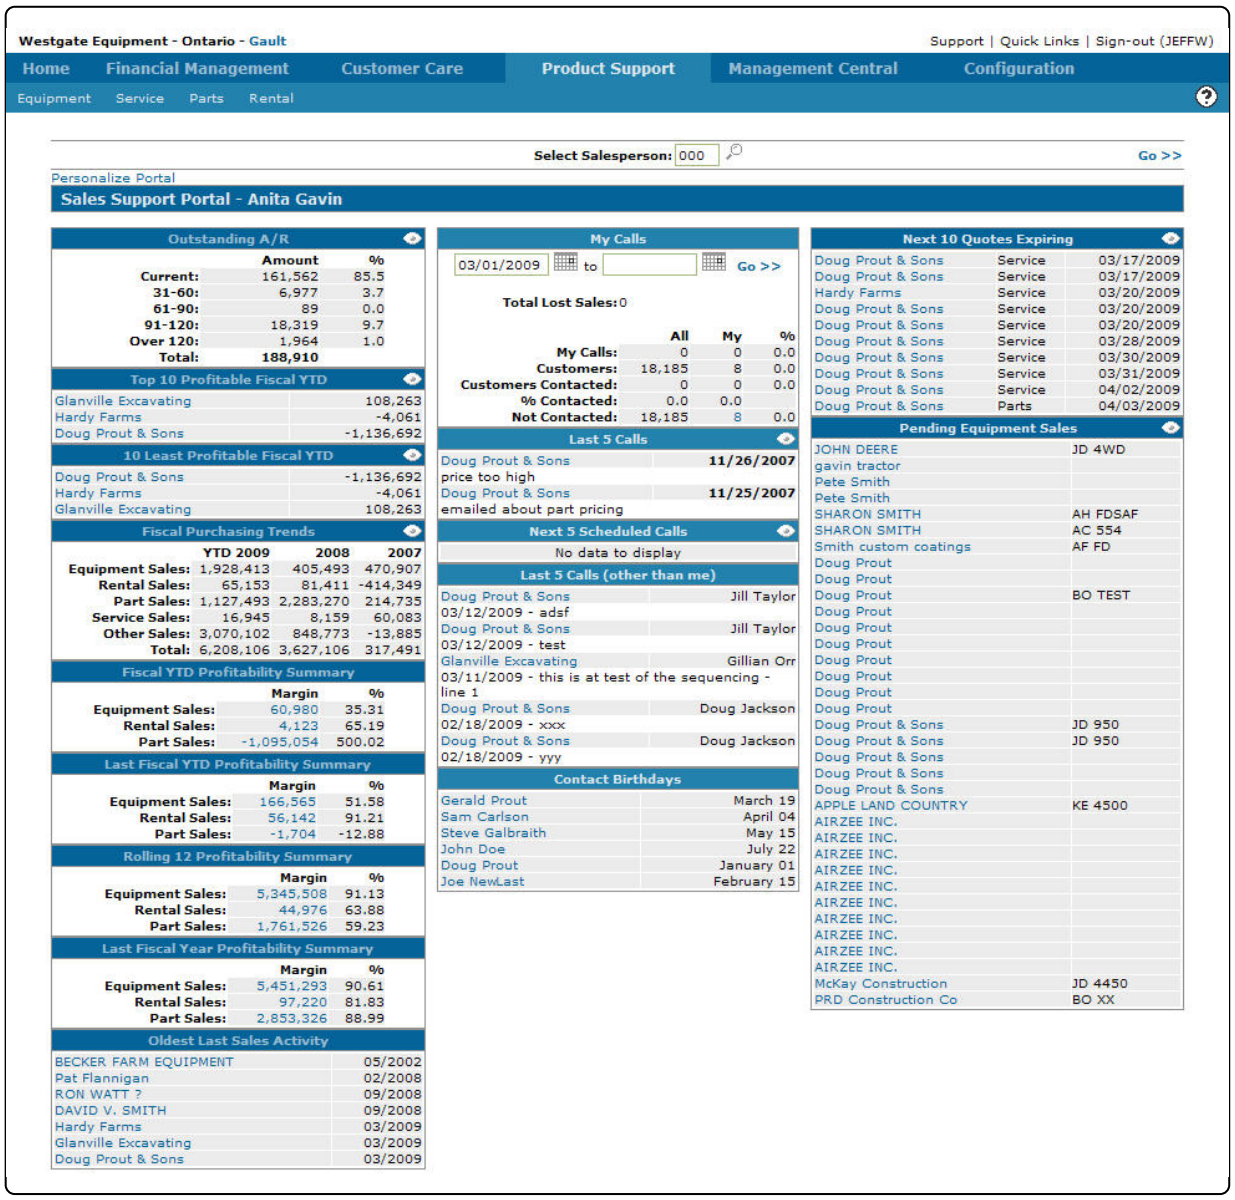
Topics in this section include:

- Setting up a Sales Support Portal
- Screen Description

Setting up a Sales Support Portal

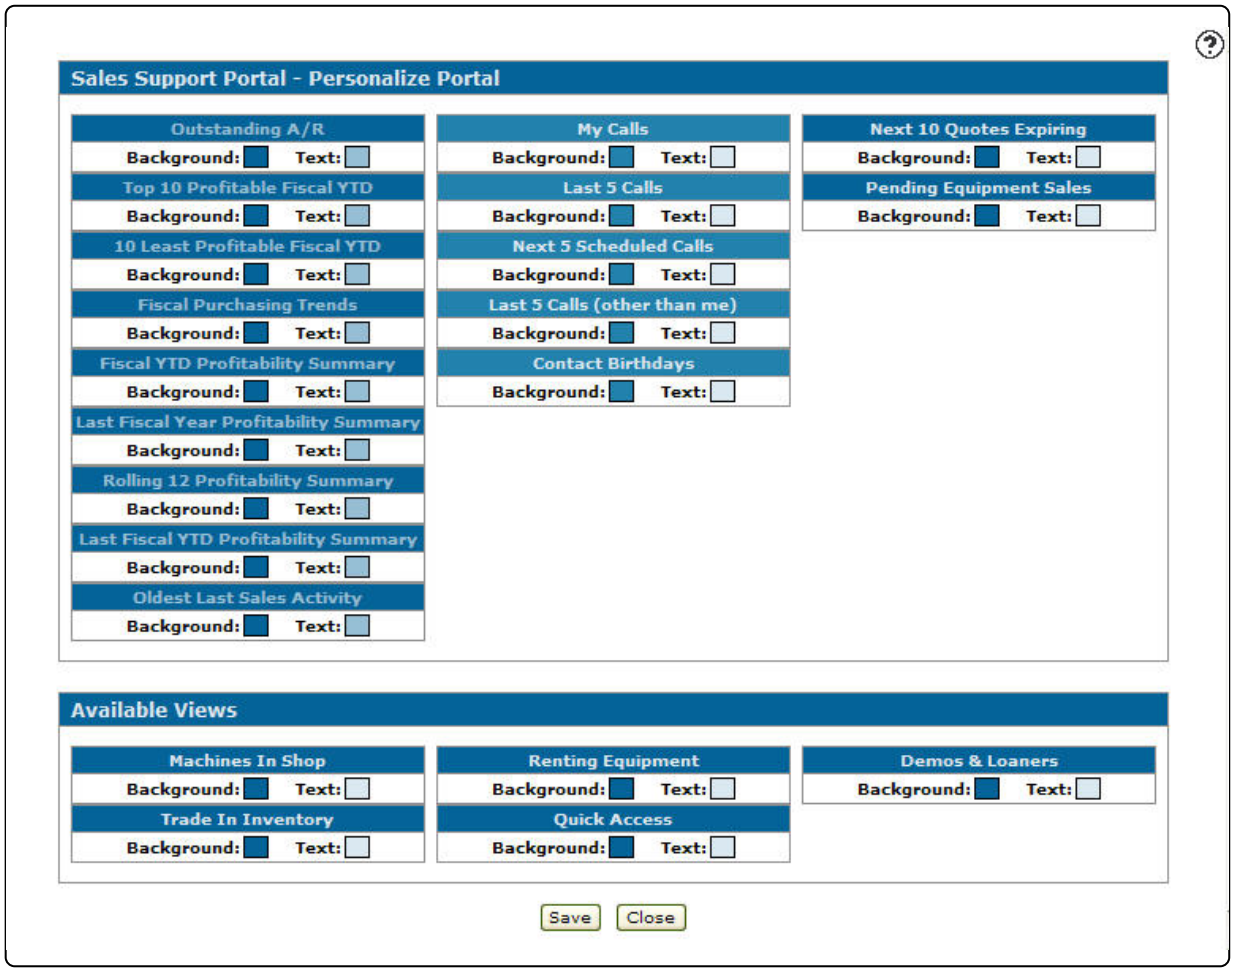
1. Navigate to **Product Support > Equipment > Sales Support Portal**.

The Sales Support Portal screen appears.



2. Click the **Personalize Portal** link, located at the top left.

The Sales Support Portal - Personalize Portal screen appears in a new browser window.

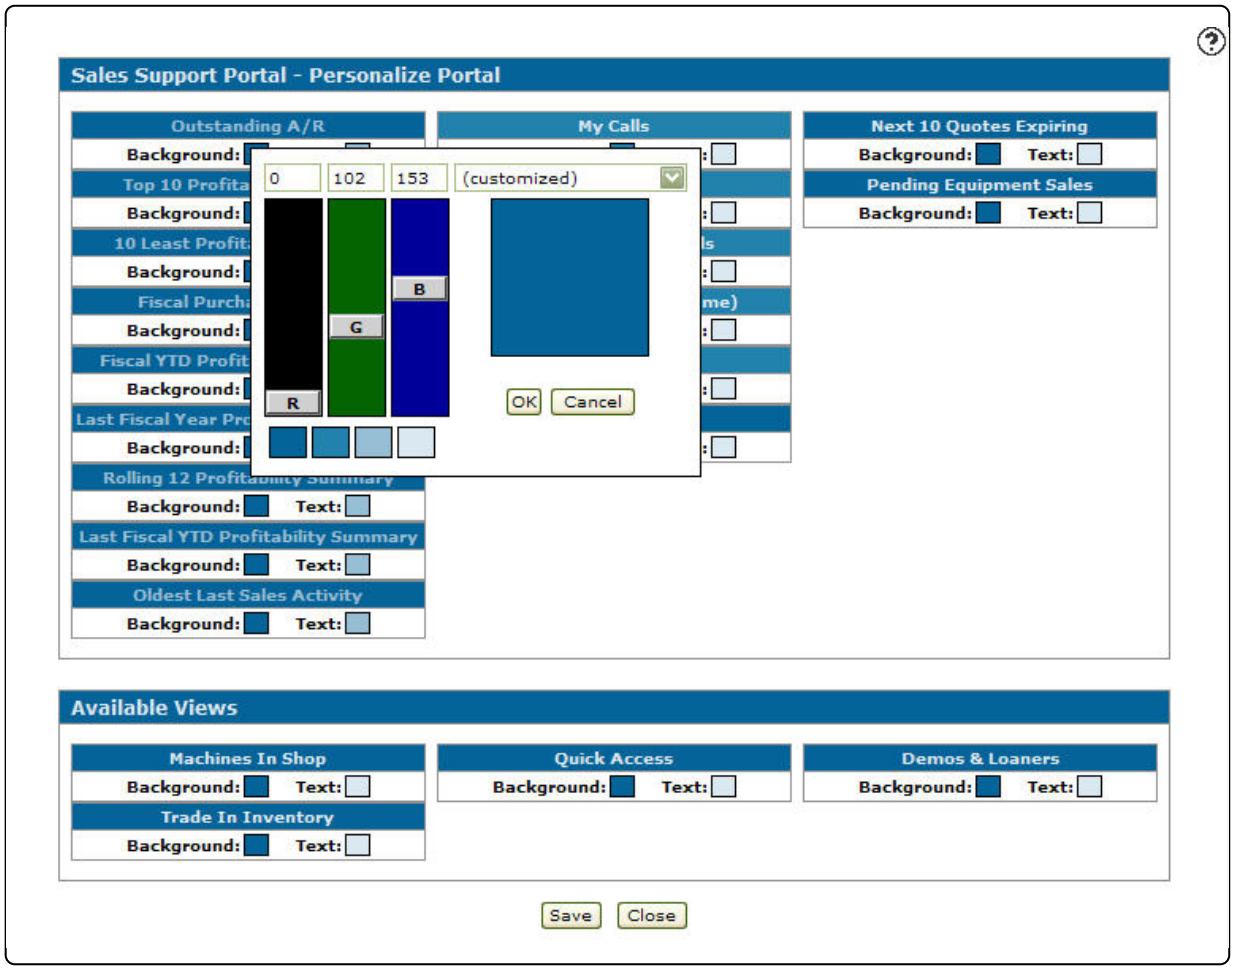


3. To add an available view to the **Sales Support Portal** screen, click the desired view from the **Available Views** section and drag it into the desired area on the **Sales Support Portal - Personalize Portal** section.

   To remove a view from the **Sales Support Portal** screen click the desired view from the **Sales Support Portal - Personalize Portal** section and drag it into the **Available Views** sections.

4. To change a view's background or text color click on the appropriate color box within the desired view.

   A Color screen appears that you can use to edit the background or text view color.



5. Click **Save** to make your changes and return to an updated view of the **Customer Portal Sequencing** screen.
   - or -
   Click the **Delete** button to discard your changes and return to the **Customer Portal Sequencing** screen.

6. From the **Customer Portal Sequencing** screen, click the **Close** button to return to the **Customer Portal** screen.

7. To update the **Customer Portal** screen to reflect the new view click **Go>>**.

> **Note:** You must have a customer selected for the customer portal sequence to be displayed.

Updated Sales Support Portal screen
