Purchase Orders

Data Source: POHDR

Security: 603 - PO System

Learning Resources: Creating a Miscellaneous Purchase Order; Creating an Equipment Purcahse Order

Revision: 2024.07

The **Purchase Orders** (PO) screen allows you to display purchase orders by status, edit preexisting purchase orders, and add new purchase orders.

Purchase Orders relate to units (**Equipment Profile**) and other items. When ordering parts, see **Parts Ordering**.

To open the **Purchase Orders** screen, navigate to **Financial Management > Accounts Payable > Purchase Orders**.
-or-
navigate to **Product Support > Equipment > Purchase Orders**.

Topics in this section are:

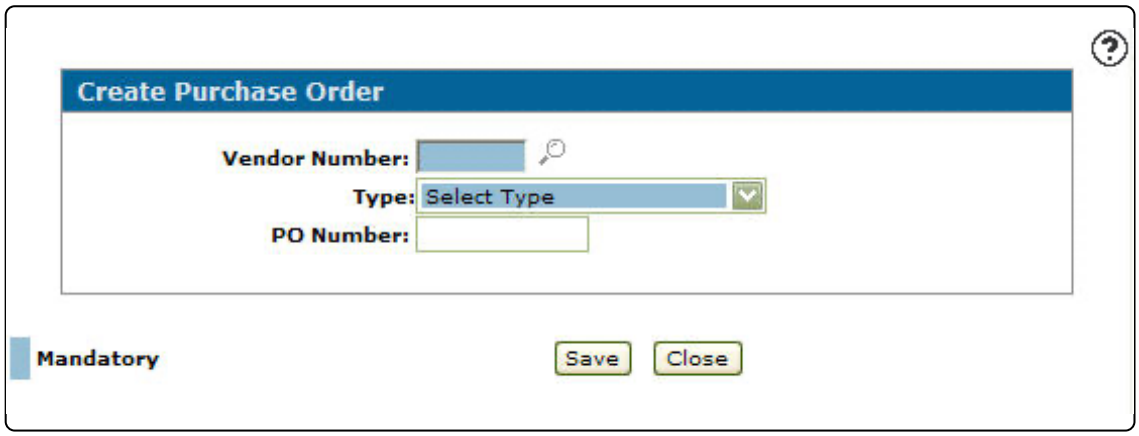
- Creating a New Purchase Order
- Adding or Editing Base and Options from Within a Purchase Order
- Putting a Purchase Order on Order
- Screen Description

Creating a New Purchase Order

1. Navigate to **Financial Management > Accounts Payable > Purchase Orders**, then click the **Click here to add a Purchase Order** link.

   The Create Purchase Order screen appears.

   ### The Create Purchase Order screen

2. Fill in the fields. Note that:
   - Click the **Search** icon to open the Vendor Selection screen.
   - When selecting a **Type**, refer to Type.
   - If the **PO Number** is left blank the system assigns a PO Number.
3. Click **Save**.

   The Purchase Order General tab appears.

   ### Purchase Order General tab

4. On each tab you can fill in additional information:
    - **Purchase Order General**—add additional information regarding a new purchase order or edit information on a preexisting purchase order.
    - Details—add items for order onto the purchase order.

      The **Details** tab allows you to import units onto a purchase order.

      For Miscellaneous type POs, you can distribute an item among several G/L accounts by selecting the add link from the **Distribute** field.
    - Shipping—add shipping and delivery information and apply shipping charges to the purchase order.
    - Terms & Conditions—add additional terms and conditions to a purchase order.
    - Long Description—as the creator of the purchase order, add additional descriptions or comments. The description or comment can be used for internal purposes only or can be printed on the purchase order.

- Call Tracking— track correspondence with a vendor regarding a purchase order.
- Printing Parameters— adjust printing parameters on the purchase order before printing and preview the purchase order before printing.
- Multimedia—add multimedia files such as photos to the purchase order.

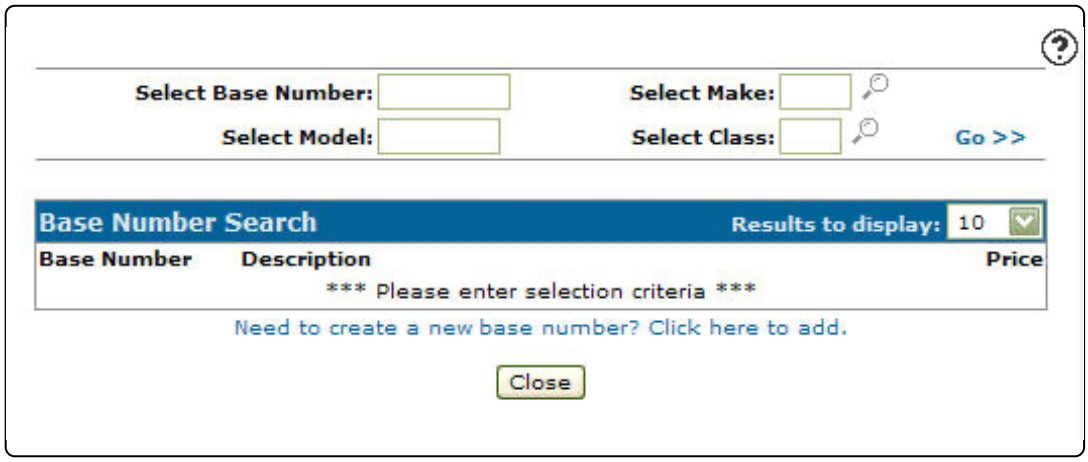
5. When you are done, click one of:
   - **Save**—save the PO in progress.
   - **Cancel**—cancels the PO and provides an opportunity to leave a comment as to why.
   - **Close**—close the PO window.

Adding or Editing Base and Options from Within a Purchase Order

1. Navigate to **Financial Management > Accounts Payable > Purchase Orders**.
2. Search for the desired PO then open it edit by moving the cursor over a **PO Number** and selecting **Edit** from the pop-up menu.
3. Click the **Details** tab, then click the **Click here to add a unit** link.

   The Base Number Search screen appears.

   Base Number Search screen



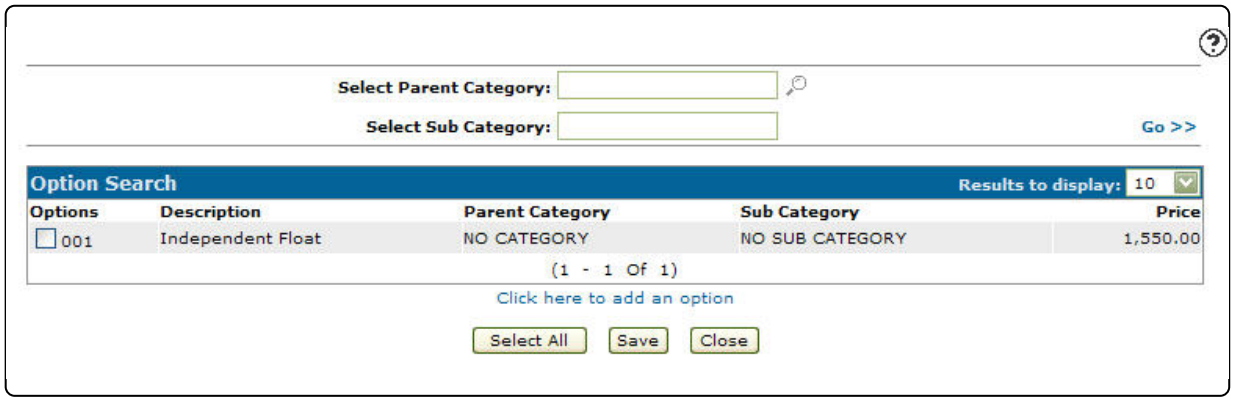
4. Fill out the appropriate fields and click the **Go >>** link.
   The **Base Number Search** screen refreshes listing the generated search results.

   Base Number Search screen

5. Select a **Base Number**.

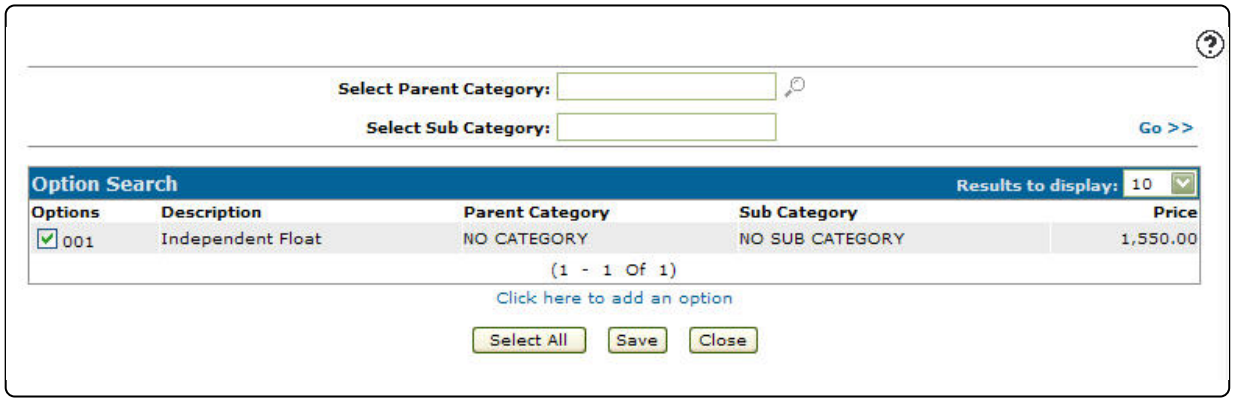
   The Options Search screen appears.

   Option Search screen



6. Select an option by clicking a checkbox.
   - or -
   Click **Select All** to select all listed options.

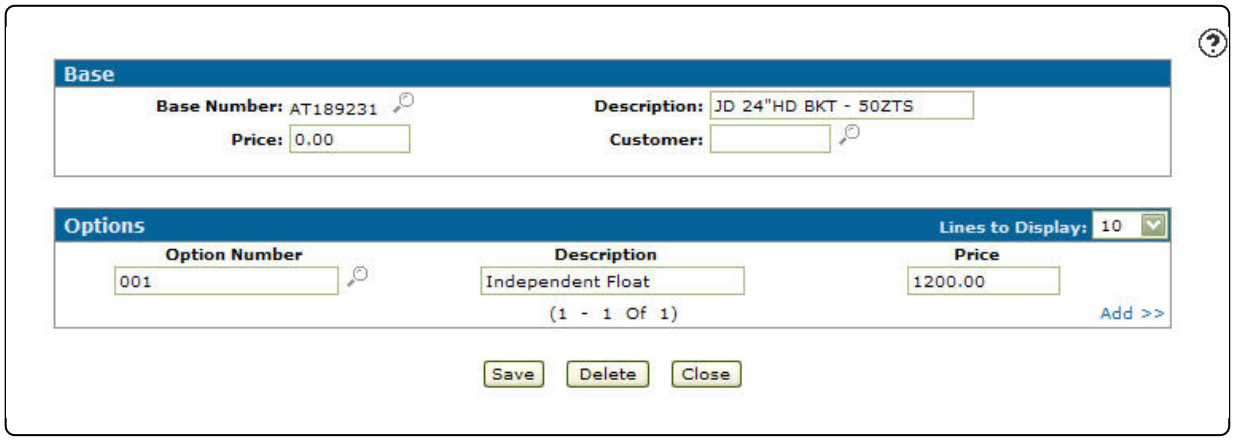
Option Search screen



7. Click **Save**.

   The Receive/Cancel Unit screen appears listing the selected **Base** and **Option** codes.

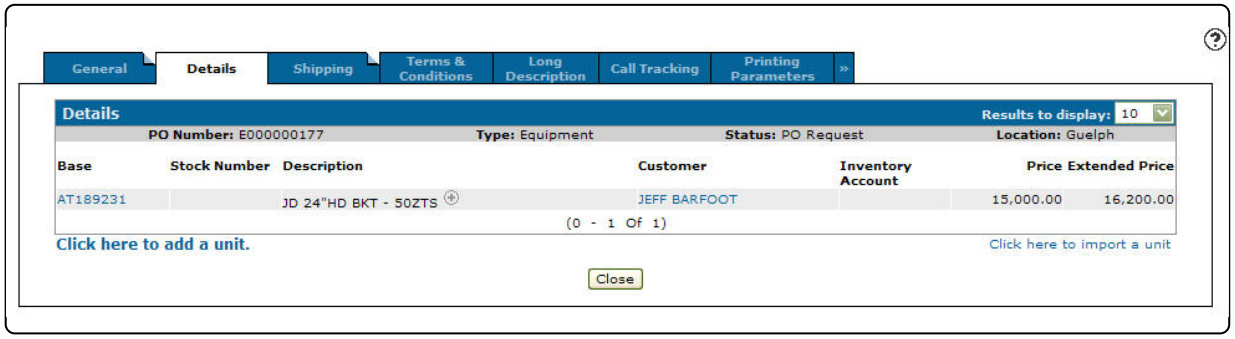
Receive/Cancel Unit screen



8. Enter a **Price**, and search for or enter a **Customer**.
9. Click **Save**.

   The **Details** screen appears listing the added unit.

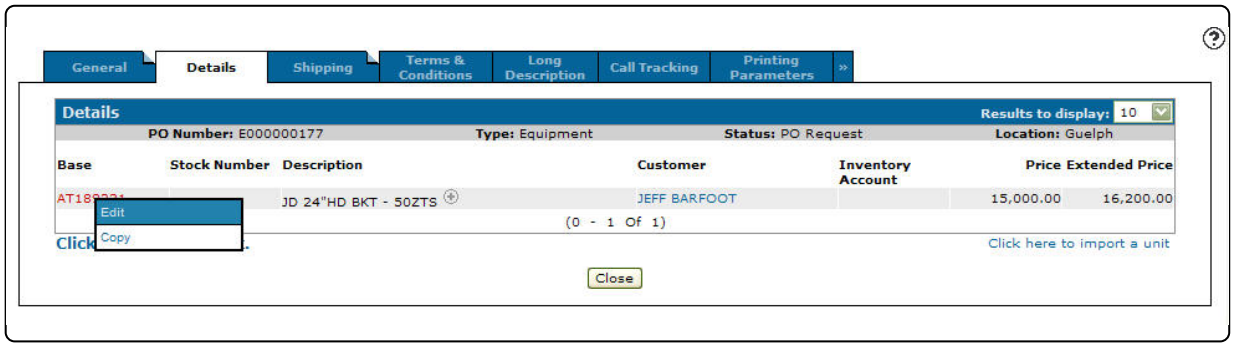
Details tab



10. To edit a unit, move the cursor over the **Base** number and select **Edit** from the pop-up menu.

    The **Base & Options** screen appears allowing you to edit any of the available fields.

Details tab



Putting a Purchase Order on Order

To put a Purchase Order on order, you must have the appropriate security authorization for its status:

- **PO Requested**—you must have created the PO and be authorized to authorize or reject a purchase order.
- **Waiting for Authorization**—you must be allowed to authorize, reject, or order a purchase order but only if you did not create the purchase order.
- **Authorized**—you must have created the purchase order.

1. Navigate to **Financial Management > Accounts Payable > Purchase Orders**.
2. Search for the desired PO then open it for edit by moving the cursor over a **PO Number** and selecting **Edit** from the pop-up menu.
3. To place the PO, click **Order**.

   The Order Comments screen appears.
4. Enter any comments related to the order of the selected purchase order.
5. Click **Save**.

   The purchase order is placed on order and its status changes to **On Order**.

6. The Equipment Add/Edit screen appears. If desired, add an Equipment Profile for the unit (if one does not exist) by clicking the **Add** link or edit the unit on order.

   Adding a unit sets its status in the **Equipment Profile** to **On Order**, unless there is a **Customer Number** on the **Purchase Order**, in which case the status is set to **Pre-Sold**.

7. Click the **Close** button to return to the **Purchase Order General** tab.

Screen Description

The sorting options on the **Purchase Orders** screen are:

Sort by	
Field	Description
PO Number	Sort the search results by PO number.
Type	Sort the search results by PO type.
Status	Sort the search results by PO status.

The PO **Statuses** to search by are:

Status	
Field	Description
All	Search through all status options.
PO Request	The PO has been created and saved, but has not been submitted for Authorization.
Waiting for Authorization	The PO is waiting for the approval of the supervisor (the PO system user with the proper authority).
Authorized	A supervisor has approved the PO, but it has not been submitted to the vendor.
On Order	The PO has been authorized and sent to the vendor. On Order POs do not have any items received or canceled.

Canceled	The PO has been canceled. Only the individual who is creating the purchase order can cancel it before it is placed On Order.
Back Order	Some of the items on the PO have been received or canceled.
Completed	All items on the PO have been accounted for; either they have been received or have been canceled.
Rejected	The PO was Waiting for Authorization but was then rejected by the supervisor. This purchase order cannot be reactivated.

The search fields on the **PO Orders** screen are:

Field	Description
Select PO Number	A unique PO number.
Select Vendor	A vendor number. Click the **Search** icon to open the Vendor Selection screen.
Select Type	Select a PO type from the drop down list.
Select Location	A location. Click the **Search** icon to open the Location Selection screen.
Select Description	The description of the PO.
Select Created By	The ID of the user who created the PO. Click the **Search** icon to open the User Selection screen.
Select Modified By	The ID of the user who last changed the PO. Click the **Search** icon to open the User Selection screen.
Select Takeover By	The ID of the user who completed the PO takeover. Click the **Search** icon to open the User Selection screen.

The fields on the **PO Orders** screen are:

Field	Description
PO Number	The purchase order number.
Type	The type of purchase order. Can be one of: • All—all types of items. • Miscellaneous—items that must be ordered and may be tied to a work order (optional). Some examples include coffee, printer paper, and sublet services. • Equipment—machines identified with stock numbers (typically with serial numbers). • Fixed Assets—items for the dealership that undergo scheduled depreciation. Possible items include laptops or machines. Requires Feature 502 - Fixed Assets. • Equipment Replenishment—used to suggest machine stock orders for maintaining inventory via minimum order levels.
Status	The current status of the purchase order.
Vendor	The name of the vendor the items are being ordered from.
Description	A brief description of the purchase order.
Created By	The user name of the user who created the purchase order.
Location	The branch location where the purchase order was created.

To save or reset search defaults, move the cursor over the **Bookmark** and select either **Save Defaults** or **Reset Defaults** from the drop down list.

Move the cursor over a **PO Number** and select one of:

- **View**—to view a completed or canceled purchase order.

- **Edit**—to edit a purchase order.
- **Copy**—to copy a purchase order.

Move the cursor over an Equipment Replenishment **PO Number** and select **Create PO From Replenishment** from the pop-up menu to create a PO from replenishment.

Click on a **Vendor** to open the **Vendor Profile** screen.

Select the **Click here to add a purchase order** link to add an Equipment, Fixed Asset, or Miscellaneous purchase order. See Creating a New Purchase Order.

Click on the **Purchase Order Report** link to run a **Purchase Order by Type** or **Equipment Replenishment** report.

Click on the **Modify default print parameters** link to modify default print parameters on the **Printing Parameters** screen.
